ACKNOWLEDGEMENTS

I AM indebted to correspondents in many parts of the world for calling attention to errors and omissions in the first edition, and in particular to Mr. W. S. Khoury, of Jerusalem, who sent useful comments on a large number of entries. I look forward to receiving further help of this kind.

For this new edition I also wish to acknowledge my debt to the Delegates of the Clarendon Press for generous permission to make use of the *Concise Oxford Dictionary* and the list of words and quotations now being compiled for a new edition of the *Oxford English Dictionary Supplement.*

The task of revision has been almost entirely my responsibility. Professor Gatenby died in 1955. Mr Wakefield was fully occupied in educational work in Malaya until 1959. On his return to England he became ill, and died in 1962. I was, however, fortunate enough to have the help of Mrs M. Alden, who shared in the preparation of the *Shorter Oxford English Dictionary.* Mrs Alden gave the typescript a thorough scrutiny, and I gratefully acknowledge her valuable services.

I have also had the advantage of being able to use the work done by Mr E. C. Parnwell for the *English-Reader's Dictionary*, and am still further in his debt for checking the final proof of this new edition.

A. S. HORNBY

October 1962

PREFACE TO THE SECOND EDITION

This is a completely revised and reset edition of the Dictionary that was first published in Tokyo, under the title *Idiomatic and Syntactic English Dictionary*, for the Institute for Research in English Teaching[1] in 1942 and reprinted photographically by the Oxford University Press from 1948 onwards for publication outside Japan.

The Dictionary was written in the years 1937–40, when the three compilers were teaching in Japan. The new edition has made it possible to bring the Dictionary up to date and to increase considerably the number of entries. Since the first edition appeared two smaller dictionaries have been compiled for foreign learners of the English language: *The Progressive English Dictionary* and *An English-Reader's Dictionary* (both by A. S. Hornby and E. C. Parnwell). Because these two books are designed for learners in the earlier stages of study, this new edition has been adapted to meet more directly the special requirements of advanced students and teachers of English.

A large number of new words has entered the language since 1940. Many words that occur in the first edition are now used in new senses and enter into new compounds. The compilers, aware of the wide range of books, from publishing houses in the U.S.A. besides those in Great Britain, that are likely to be read by advanced students of English, have readily admitted new words and phrases.

The words and phrases given in this Dictionary are those that are likely to be needed by persons who use English for general purposes. This is not a Dictionary of 'Modern English' if this term is used in its usual accepted sense, English since the time of Chaucer. The student of Chaucer will need specially annotated editions. It does not include all the words that occur in Shakespeare's plays. For these, too, annotated editions are needed.

This is a Dictionary of Current or Contemporary English, the kind of English used in the twentieth century by well-educated persons in Great Britain and the U.S.A. It includes also certain archaic words that are likely to be met with in literary, especially poetic, contexts. It admits scientific and technical words that occur commonly in ordinary periodicals, but not those that rarely occur outside advanced textbooks and specialist periodicals. quial and slang words and phrases are included if they com occur in modern fiction and drama. Warnings about these found in the Notes on the Use of the Dictionary. Foreign and phrases widely adopted by English writers are also rec together with common Latin phrases.

---

[1] Now the Institute for Research in Language Teaching.

Because many users of this Dictionary are likely to we help in the composition of English, the guidance on syntax, form of references to verb patterns, has been reprinted in th edition. Verb entries are supplied with references to the 2 patterns set out in the Notes. Students who would like fuller mation on these and on other questions of syntax and usa referred to *A Guide to Patterns and Usage* (O.U.P.). The refe to verb patterns are, in most cases, followed by illustrative p and sentences that show the patterns in use.

Definitions have been made as simple as possible consist with accuracy. Many words defy definition in simple terms commonest structural words (for example, the finites of *b* *have*, the articles, such prepositions as *up*, *down*, *in*, *at*, *by*, an are dealt with by the provision of very numerous examples. user of the book is in doubt about the correct preposition or a bial particle to use with a noun or verb, he should, in general to the noun or verb entry itself, not to the entries for the pr tions or adverbial particles which he may consider likely or pos If, for example, he needs to use the noun *duty*, he will, at find the examples 'your duty *to* your parents', 'go *on* duty 'come *off* duty', '*in* duty bound', and 'do duty *for*'.

This Dictionary contains about 1,000 illustrations and grams. In the Appendixes there are other drawings and diag for sport and music, and for sailing-ships, aircraft, and motor Anyone reading, for example, the novels of Conrad or authors concerned with the sea, will meet with many tec words connected with sails and rigging. It would be unecono of space to enter all such words in the body of the Dictio Some of them are not easily defined, whereas a drawing is s to understand. Information on weights and measures and on in the Armed Forces is also given in the Appendixes.

Conventional or traditional grammatical terminology is far satisfactory. There is no agreement among grammarians on words should be named as parts of speech. In this Dictionar terms are, for the most part, those sanctioned by usage and to be familiar to readers. In a few cases terms used in the edition, introduced by Dr. H. E. Palmer, first Director

Institute for Research in English Teaching, have been retained. The terms *anomalous finite* and *adverbial particle* have been accepted by many writers on grammar. They are used in this Dictionary and are explained in the Notes (pp. ix–xiv).

NOTES ON THE USE OF THE DICTIONARY

PRINTING CONVENTIONS

Compilers and printers of a dictionary face the difficulty of setting out a mass of detailed text economically and clearly. If they use too many contractions and symbols the dictionary may prove to be too complicated for easy use; if they are too extravagant of space the dictionary may become too large and expensive. A balance has to be struck between these two considerations. The user of this Dictionary will be helped to grasp its simple printing conventions if he will study the following explanations.

1. Headwords and Derivatives

A headword and its derivatives are printed in bold roman type, thus:

am pli fy, am pli fi ca tion, am pli fi er

Words of more than one syllable have spaces to indicate the separate syllables. If a headword is written and printed with a hyphen, the hyphen is printed in the headword, as **riff-raff.** When a headword functions as more than one part of speech and when a single article covering these would be too long, each is given a separate entry and each such headword is numbered (e.g. *cover*, v. & n.). Similarly, words with the same spelling but unrelated in meaning are treated in separate articles under numbered headwords, thus:

^{1}**row,** ^{2}**row,** ^{3}**row** (see p. 863 of this Dictionary).

If derivatives can be dealt with briefly (e.g. most adverbs in *-ly* after the adjective) they are not entered as headwords. If, however, such a word has a meaning not closely related to the word to which a suffix is added (e.g. *hardly* meaning 'scarcely'), it is entered as a headword.

2. Part of Speech

This is printed in bold italic type, thus: ***v.t. & i.*** See the List of Abbreviations, pp. xxix–xxx.

3. The tilde (~)

When a headword of more than three letters is repeated in the article, for example in illustrative phrases, it is usually represented by a tilde to save space. The tilde is not used in derivatives (when printed in bold roman type) if this would be misleading for syllable division. Thus, in the article on *adopt*, the derivatives *adoption* and *adoptive* (with syllable division *a dop tion* and *a dop tive*) are printed in full, without the tilde, though the forms with the tilde (*~ion* and *~ive*) are used in the examples.

4. Pronunciation

The pronunciation of each headword (see the Key to Pronunciation on pp. xxxi–xxxii) is printed immediately after it in square brackets. If, in derivatives or compounds, there is a change in the position of the stress that causes a change in the pronunciation, the pronunciations are given; otherwise they are not. Thus:

a dore [əˈdɔː*, əˈdɔə*], **a do ra tion** [ˌædəˈreiʃən].

5. Definitions

These, and also any explanation or paraphrase of any example or usage, appear in ordinary (roman) type.

6. Illustrative Phrases and Sentences

These are printed in ordinary italic type. If an explanation or paraphrase o a part of such a phrase or sentence occurs within the phrase or sentence it i enclosed in parentheses; if it follows, it is preceded by a comma and parentheses are not used.

7. Compounds

These, when they do not appear as headwords, are printed within the entr in bold italic type, with or without the tilde, as may be appropriate. Thus, und *back*, the following, among others, appear:

~-bencher, ~-blocks, ~bone, ~ground

In such compounds the hyphen is printed if it is normally used. If the tilde i joined to the second element of the compound (as in *~bone*), this indicates tha a hyphen is not normally used. In the use of hyphens, for which there is seldom an invariable rule, this Dictionary usually follows the *Concise Oxford Dictionary*

8. Semantic Varieties

The various senses of a headword are marked off by numerals in bold roman type: (**1, 2, 3,** etc.). If a compound, phrase, or phrasal verb is used in more than one sense, each is introduced by a letter of the alphabet in italic type within parentheses, thus: (*a*), (*b*), (*c*).

9. Structural Words

Important structural words (for example, *some*, *any*, *all*, *one*, *on*, *off*, *only*) are often best dealt with by means of illustrative phrases and sentences. Many of them function as more than one part of speech.

Each part of speech is, in such cases, preceded by a roman numeral in bold type, thus:

all [ɔːl] ***adj., pron., adv., & n.*** **I.** ***adj***. . . . **II.** ***pron***. . . . **III.** ***adv***. . . . **IV.** ***n.***

These may be further divided by the use of arabic numerals in bold type.

10. Idiomatic word groups, or collocations

These are printed in bold italic type, thus: (in the article on *all*) ***on all fours, all in all, once (and) for all***; (in the article on *answer*) ***~ the door (the bell), ~ (sb.) back.*** A parenthesis in such entries indicates an alternative usage. Thus, the entry (under *back*, adv.) ***go ~ upon (from) one's word*** indicates that *go back upon one's word* and *go back from one's word* are both in use.

11. Asterisks

Asterisks refer the user to entries elsewhere. Thus, under *take*, def. 28, there are references to numerous collocations of *take* and a noun:

~ the *chair, ~ *pains, ~ *heart, ~ (holy) *orders.

SPELLINGS

Alternative spelling forms that are commonly used in Great Britain are given. Thus *tire* and *silvan* are entered, but are dealt with at *tyre* and *sylvan*. Alternative spelling forms usual in the U.S.A. are given. Thus, *theatre* (U.S.A. *theater*); *honour* (U.S.A. *honor*). In dealing with verbs of which the final consonant may be doubled, both British and American usage is indicated. Thus *travel* (*-ll-* U.S.A. also *-l-*), showing that British usage is *travelled*, *traveller*, and U.S.A. usage *traveled*, *traveler*.

When, in the comparative and superlative of adjectives and adverbs in *-y*, *-ier* and *-iest* are used, this is indicated. Thus, *lively* (*-ier*, *-iest*). Such indications should not be taken as rules, however. The use of *more* and *most* is often equally possible, the choice depending upon sentence rhythm and other factors.

STYLISTIC VALUES

The foreign student of English often has difficulty in judging the stylistic values of words. It would be helpful to indicate these values in the Dictionary. Unfortunately it is almost impossible to do this. It is simple in many cases to label a word as slang, archaic, literary, or poetic, but there are many borderline cases. Is *lousy*, for example, an ordinary colloquial word, safe to use in conversation in polite circles, or should it be marked slang? It has been ruled by the Speaker of the House of Commons as 'unparliamentary'. Many words that are seldom used in conversation by the majority of English people are commonly used in speech by the well-educated classes. They might be labelled 'high-level colloquial'. But he would be a rash person who dared to make such distinctions.

Indications in this Dictionary, therefore, are given only when stylistic values can be stated without much doubt. Slang uses are given. The foreign student of English is advised to avoid the use of slang. He needs a recognition knowledge of these words and phrases, for he may hear them, and he will meet them in fiction and drama. But slang is usually the possession of a class. There is schoolboy slang, army slang, technical jargon. Nothing more quickly dates than slang. To use slang that is out of date, or to use it in a wrong situation, is to betray oneself at once as one to whom English is still an unfamiliar element.

A small number of words in this Dictionary are marked 'taboo'. This is a warning that they should in no circumstances be used, even though they may be encountered in print. Other words and phrases are marked by the sign ⚠, which is, to pedestrians and drivers of vehicles, a warning of danger and the need for caution. Any word or phrase marked by this sign should also be avoided. The sign is a warning that the word or phrase is either vulgar or incorrect. *Ain't* occurs in print, but its use is normally confined to dialect or to the illiterate and uneducated. Words marked *liter.* (for literary) or *poet.* (for poetic) are better avoided in conversation. *Lonely* and *sad* are preferable to *forlorn*; *enemy* is preferable to *foe*, and *soldier* or *fighter* to *warrior*.

PRONUNCIATION AND STRESS

The symbols used in this Dictionary for indicating pronunciation are those of the International Phonetic Association and the transcription is a broad one, as used by Professor Daniel Jones in his *English Pronouncing Dictionary*. Only the most commonly used variants are given. A key to the symbols is given on pp. xxxi–xxxii. Where variants are in one syllable only, they are shown thus: **threnody** [ˈθriːnədi, ˈθren-]. This indicates that the two pronunciations [ˈθriːnədi] and [ˈθrenədi] are used. If usage in the U.S.A. differs considerably from British usage, the two pronunciations are given (as for **advertisement** [ədˈvəːtismənt, (U.S.A.) ˌædvəˈtaizmənt], **fertile** [ˈfəːtail, (U.S.A.) ˈfəː(r)til].

For foreign words and phrases two pronunciations are, in many cases, given. The first is an anglicized pronunciation and the second the pronunciation likely to be heard from careful British speakers who know how the words are pronounced by native speakers of the language. If no anglicized pronunciation is given, this means that there is no accepted anglicized pronunciation for the word or phrase. The symbols used for non-English sounds are printed with the key on p. xxxii.

Stress marks and notes on their use will also be found in this key.

TERMINOLOGY

Anomalous Verbs

Some of the verb entries in this Dictionary are followed by *anom. fin* for *anomalous finite*. The anomalous verbs and their finites are set out table below.

	Non-finite forms			*Finite forms*	
	Infinitive	*Present Participle*	*Past Participle*	*Present Tense*	*Pa Te*
1	be	being	been	am, is, are	was, w
2	have	having	had	have, has	had
3	do	doing	done	do, does	did
4	—	—	—	shall	should
5	—	—	—	will	would
6	—	—	—	can	could
7	—	—	—	may	might
8	—	—	—	must	—
9	—	—	—	ought	—
10	—	—	—	need	—
11	—	—	—	dare	—
12	—	—	—	—	used

The 24 finite forms on the right-hand side of this table are important in lish syntax. The grammar mechanisms of Affirmation, Negation, and Int gation cannot clearly be explained without reference to them.

Negative

The negative sentence is made by placing the adverb *not* after the anom finite.

Thus, *I am → I am not*; *you can → you cannot*; *they ought → they ough* If an affirmative sentence contains no anomalous finite, the non-anom finite must first be replaced by using the corresponding expanded tense, introducing *do*, *does*, or *did* (anomalous finites).

Thus, *I go → I do go → I do not go*; *he went → he did go → he did not*

Interrogative

The chief mechanism for expressing the formal interrogative in modern lish (and in many European languages) is inversion of subject and finite.

Thus, *I am → am I? you ought → ought you? they must → must they?*

In modern English only the anomalous finites are normally inverted the subject to form the interrogative. (*Went you* is archaic or biblical, and constructions as '*Yes*', *said he* are exceptional.) If an affirmative sentence tains no anomalous finite, the procedure described above for the negat followed.

Thus, *he comes → he does come → does he come? they came → they did con did they come?*

Other examples of subject and finite inversion (always with one of 24 anomalous finites) may be seen in sentences which contain a front-sh adverbial.

E.g. Not only *did they* expect us but . . .
In no other way *can the matter* be explained.
Never before *have I* heard such fine singing.

The 24 anomalous finites are used to avoid repetition. This is seen clearly in answers to questions requiring a *yes* or *no* in the answer, and answers in which the subject is the essential part.

E.g. Have you read that book? Yes, I *have*. (Instead of *have read that book.*)
Shall you be seeing him soon? Yes, I *shall*. (Instead of *shall be seeing him soon.*)
Who discovered America? Columbus *did*. (Instead of *discovered America.*)

The 24 anomalous finites are used in other ways, e.g.

(*a*) In Disjunctive Questions:
You can't come, *can* you?
You can come, *can*'t you?
He arrived late, *did*n't he?

(*b*) In constructions expressing *also* and *also not*:
I can go there and so *can* you.
I went there and so *did* you.
I can't go; nor *can* you.
I didn't go; nor *did* you.

(*c*) In comments which confirm or contradict:
You told us that yesterday. Oh, yes, so I *did*!
Why didn't you tell us that yesterday? But I *did*!

For a further description of the functions of these finites, the reader may consult *A Guide to Patterns and Usage in English*, pp. 1–15.

Adverbial Particles

The term *adverbial particle* is used to designate an adverb of a particular class differing in many ways from other adverbs. In most cases these adverbs (e.g. *about*, *by*, *down*, *in*, *off*, *on*, *over*, *round*, *through*, *up*) are also used as prepositions.

They are important because they enter into combinations with verbs to form collocations such as *blow up* (explode), *leave off* (stop), *go on* (continue), *give in* (yield), *give up* (abandon), *make out* (understand).

Another important feature of the adverbial particles is their position in the sentence. The following points should be well known to all learners who wish to write good English.

1. When there is no direct object in the sentence, the adverbial particle follows the verb immediately.

E.g. *Come in. Do not give up, whatever happens.*

2. When there is a direct object which is a personal pronoun, the adverbial particle is placed after, not before, the personal pronoun.

E.g. *I cannot make it out. Put them on. Throw him out.*

3. When there is a direct object which is not a personal pronoun, the adverbial particle may be placed either before or after the direct object.

E.g. *Put your coat on. He put on his coat.*

In sentences where the direct object is long (e.g. when it is a noun clause), it is preferable to place the adverbial particle with the verb, and before the direct object.

E.g. *He gave away every book that he possessed.*
(Cf. *He gave his books away.*)

4. The adverbial particles may be placed at the beginning of exclamatory sentences.

E.g. *In you go! Away they went! Off went John!*

Note that in sentences of this kind subject and verb are inverted if the subjec is a noun but not inverted if the subject is a personal pronoun.

5. The adverbial particles are compounded with the preposition *with* in verbless exclamations.

E.g. *Down with the tyrant! Up with the Republic!*
Off with his head! Away with him!

Nouns: Singular and Plural

There are some language problems which are adequately treated neither in dictionaries nor in the majority of textbooks on grammar. For those to whom English is a foreign language the problem of whether (and when) a noun may be used in the plural is often difficult. In some languages little or no distinctior is made between singular and plural. In other languages nouns that may have plural forms (as French *nouvelles*) are, in English, used only in the singular (as English *news*).

In order to help the student of English to avoid such errors as *interesting informations*, *useful advices*, *an interesting news*, *a valuable furniture*, indications are supplied in this Dictionary with most noun entries. These show which nouns and which semantic varieties of nouns, may be used in the plural, and which may not, except with a change or extension of meaning. If a noun entry is fol lowed by [C], or if [C] is placed after one of the numerals marking semanti varieties, it is a noun standing for something that may be counted. It may therefore, be used with the indefinite article, or with *many*, numerals, and th plural form. If [U] is used, the noun stands for something (a material, quality abstraction, etc.) that cannot be counted, though it may be measured. Such noun is not normally used with the indefinite article and has no plural form

Difficulty may be taken as an example. Definition 1 is marked [U] and ther are examples to illustrate its use: *with difficulty*; *without any* (*much*) *difficult* Definition 2 is marked [C], with examples of the plural: *be in difficulties*; *th difficulties of Greek syntax.*

Verb Patterns

The verb patterns in this Dictionary supply information concerning synta They enable the learner to use verbs in the ways that are in accordance wi correct usage. If the learner will spend a few hours studying these verb patter he will be able to avoid numerous errors.

One who is learning English as a foreign language is apt to form sentences analogy. This habit may at times lead him into error. He sees sentences of t type, 'Please tell me the meaning' or 'Please show me the way' (i.e. with indirect object followed by a direct object). By analogy he makes the incorr sentence 'Please explain me the meaning'. He sees the sentences 'I intend come', 'I propose to come', and 'I want to come', and by analogy he makes sentence 'I suggest to come' (instead of 'I suggest that I should come'). He such sentences as 'I asked him to come', 'I told him to come', and 'I wan him to come' and by analogy he makes the sentences 'I proposed him to co and 'I suggested him to come' (instead of 'I proposed (suggested) tha should come'). He notes that 'He began to talk about the matter' means almost the same as 'He began talking about the matter' and concludes, wrongly, that 'He stopped to talk about the matter' means the same as 'He stopped talking about the matter'. Such misapprehensions are natural. The ordinary grammar book and dictionary usually fail to supply adequate information on such points. The patterns below, with the numerical indications supplied with the verb entries (thus VP 1, 10, 18, 21, 23), do give guidance.

There are variations of these patterns. These are described in detail in *A Guide to Patterns and Usage in English*, pp. 15–82.

Summary of Verb Patterns

Patterns 1 to 19 indicate what are usually called *transitive* uses of verbs. Patterns 20 to 25 indicate what are usually called *intransitive* uses.

The term *conjunctive* is used in this list for the interrogative adverbs and pronouns (*how*, *what*, *when*, *where*, *who*, *whom*, *whose*, *why*) and the conjunctions *whether* and *if* (when this is used for *whether*) when they introduce dependent clauses or infinitive phrases.

VP 1 . . . Vb × Direct Object
VP 2 . . . Vb × (*not*) *to* × Infinitive, etc.
VP 3 . . . Vb × Noun or Pronoun × (*not*) *to* × Infinitive, etc.
VP 4 . . . Vb × Noun or Pronoun × (*to be*) × Complement
VP 5 . . . Vb × Noun or Pronoun × Infinitive, etc.
VP 6 . . . Vb × Noun or Pronoun × Present Participle
VP 7 . . . Vb × Object × Adjective
VP 8 . . . Vb × Object × Noun
VP 9 . . . Vb × Object × Past Participle
VP 10 . . . Vb × Object × Adverb or Adverbial Phrase, etc.
VP 11 . . . Vb × *that*-clause
VP 12 . . . Vb × Noun or Pronoun × *that*-clause
VP 13 . . . Vb × Conjunctive × *to* × Infinitive, etc.
VP 14 . . . Vb × Noun or Pronoun × Conjunctive × *to* × Infinitive, etc.
VP 15 . . . Vb × Conjunctive × Clause
VP 16 . . . Vb × Noun or Pronoun × Conjunctive × Clause
VP 17 . . . Vb × Gerund, etc.
VP 18 . . . Vb × Direct Object × Preposition × Prepositional Object
VP 19 . . . Vb × Indirect Object × Direct Object
VP 20 . . . Vb × (*for*) × Complement of Distance, Time, Price, etc.
VP 21 . . . Vb alone
VP 22 . . . Vb × Predicative
VP 23 . . . Vb × Adverbial Adjunct
VP 24 . . . Vb × Preposition × Prepositional Object
VP 25 . . . Vb × *to* × Infinitive

Verb Pattern 1

Verbs marked VP 1 may be used with a simple direct object which is a noun or pronoun (cf. VP 17 for the use of gerunds).

Examples:

	Subject × Verb	*Direct Object*
1	He cut	his finger.
2	We have already had	breakfast.
3	He does not like	cold weather.
4	We always do	that.
5	I want	six.
6	We lit	a fire.
7	They were throwing	stones.
8	A baby cannot dress	itself.
9	He laughed	a merry laugh.
10	She smiled	her thanks.
11	I dug	a hole.

Verb Pattern 2

Verbs marked VP 2 may be followed by (*not*) *to* and an Infinitive. The *to* finitive is usually regarded as the object of the verb. For examples of intr tive verbs (e.g. *be, happen, come*) followed by *to* × Infinitive see VP 2 VP 17B.

Examples:

	Subject × Verb	(not) × to × *Infinitive, etc.*
1	He wants	to go.
2	I have promised	to help them.
3	They decided	not to go.
4	Did you remember*	to shut the windows ?
5	He agreed	to pay for it.
6	Have you	to go to school today ?
7	Would you care	to go for a walk ?
8	He pretended	not to see me.

* See *remember* in VP 17A, Group A, example 3.

Verb Pattern 3

Verbs marked VP 3 may be followed by a noun or pronoun and by (and an infinitive. (Cf. VP 10 for sentences in which the *to* × infinitive is for *in order to* × infinitive.)

Examples:

	Subject × Verb	*Noun or Pronoun*	(not) to × *Infiniti*
1	He wants	me	to be early.
2	I asked	him	not to do it.
3	I told	the servant	to open the wind
4	Please help*	me	to carry this box.
5	He likes	his wife	to dress well.
6	Your teacher expects	you	to work hard.
7	I warned	him	not to be late.
8	He allowed	the soldiers	to take him pris
9	They have never known*	him	to behave so bad

* Cf. examples 6 and 4 in VP 5.

Note the passive construction:

3. The servant was told to open the window.
7. He was warned not to be late.

Verb Pattern 4

Verbs marked VP 4 may be followed by a noun or pronoun, *to be* (often omitted), and a complement. Sentences in VP 4 may also be constructed in VP 11.

Examples:

	Subject × Verb	*Noun or Pronoun*	(to be)	*Complement*
1	They believed	him	(to be)	innocent.
2	Do you consider	her	(to be)	honest?
3	I consider	it	(to be)	a shame.
4	Tom's teacher thinks	him	(to be)	the cleverest boy in the class.
5	We proved	him	(to be)	wrong.

Note the passive construction:

1. He was believed (to be) innocent.
2. Is she considered (to be) honest?

Note the same sentences in VP 11:

1. They believed (that) he was innocent.
2. Do you consider (that) she is honest?

Verb Pattern 5

Verbs marked VP 5 are used in a way similar to that in which verbs marked VP 3 are used but with the important difference that *to* is omitted before the infinitive. (Cf. Allow me to go. Let me go.) Those verbs in this pattern which are called verbs of perception (i.e. verbs of seeing, hearing, etc.) may also be used in VP 6.

Examples:

	Subject × Verb	*Noun or Pronoun*	*Infinitive, etc.*
1	I made	him	do it.
2	Let	me	go!
3	We must not let	the matter	rest here.
4	They have never known*	him	behave so badly.
5	I will have	him	do the work.
6	Will you help*	me	carry this box?
7	Would you have	me	believe that?
8	I heard	him	come in.
9	We saw	them	go out.
10	They felt	the house	shake.
11	Watch	me	do it.
12	Did anyone notice	the thief	leave the house?

* Cf. examples 9 and 4 in VP 3.

Note the passive construction:

1. He was made to do it.
4. He has never been known to behave so badly.

9. They were seen to go out.

In examples 8 to 12, VP 6 might also be used. 'I saw him go out' means 'I went out and I saw him' and 'I saw him going out' means 'He was going when I saw him'.

Verb Pattern 6

Verbs marked VP 6 may be followed by a noun or a pronoun and a prese participle. In the case of verbs of perception VP 5 may also be used. (See t note on examples 8 to 12 above.)

	Subject × Verb	*Noun or Pronoun*	*Present Participle*
1	He kept	me	waiting.
2	I found	him	working at his desk.
3	They left	me	standing outside.
4	I heard	him	giving orders.
5	We watched	the train	leaving the station.
6	Do you feel	the house	shaking ?
7	Can you smell	something	burning ?
8	I saw	him	running off.

Note the passive construction:

1. I was kept waiting.
4. He was heard giving orders.

Verb Pattern 7

Verbs marked VP 7 may be followed by an object and an object compleme which is an adjective.

Examples:

	Subject × Verb	*Object*	*Adjective*
1	Don't get	your clothes	dirty.
2	The sun keeps	us	warm.
3	Get	yourself	ready.
4	Don't make	yourself	uneasy.
5	I found	the box	empty.
6	We painted	the door	green.
7	They set	the prisoners	free.
8	Can you push	the door	open ?
9	The cold weather turned	the leaves	red.
10	He wished	himself	dead.

Note the passive construction:

5. The box was found empty.
6. The door was painted green.
7. The prisoners were set free.

Verb Pattern 8

Verbs marked VP 8 may be followed by an object and an object compl which is a noun.

Examples:

	Subject × Verb	*Object*	*Noun*
1	They elected	him	king.
2	The people crowned	Richard	king.
3	They chose	Mr Smith	chairman.
4	We call	the dog	'Spot'.
5	They named	their son	Henry.
6	They made	Newton	President of the Royal Society.
7	They called	them	cowards.

ote the passive construction:

1. He was elected king.
6. Newton was made President of the Royal Society.

Verb Pattern 9

Verbs marked VP 9 may be followed by an object and a past participle.

Examples:

	Subject × Verb	*Object*	*Past Participle*
1	You must get	your hair	cut.
2	Where did you have	them	printed ?
3	She had	a new dress	made.
4	Have you ever heard	Italian	spoken ?
5	His actions made	him	respected.
6	King Charles I had	his head	cut off.
7	The soldier had	two horses	shot under him.

ote that in this pattern, the action or state named by the past participle may may not be in accordance with the will of the subject.

Verb Pattern 10

Verbs marked VP 10 may be followed by an object and an adverb or an lverbial phrase (including adverbial infinitives meaning *in order to* . . .). See also e notes on the adverbial particles (pp. xiii–xiv) for the alternative position the particle (preceding the object).

Examples:

	Subject × Verb	*Object*	*Adverb, Adverb Phrase, etc.*
1	Put	it	here.
2	He took	his hat	off.
3	He has given	it	away.
4	Mr Smith showed	me	to the door.
5	We employed	her	as a cook.
6	They treat	their sister	as if she were only a servant.
7	He brought	his brother	to see me.
8	He took	the medicine	in order to get well.
9	They led	me	to believe that there was no danger.
10	I don't know	her	to speak to.

Note the passive constructions:

4. I was shown to the door (by Mr Smith).
6. Their sister is treated as if she were only a servant.

Verb Pattern 11

Verbs marked VP 11 may be followed directly by a *that*-clause. Examples:

	Subject × *Verb*	(that) × *Clause*
1	I hope	(that) you will come.
2	I suppose	(that) you will be there.
3	He explained	that nothing could be done.
4	Do you think	(that) it will rain?
5	He saw	(that) the plan was useless.
6	I suggested	(that) he should leave early.

When a passive construction is used for sentences of this type, *it* may be used to anticipate the clause.

3. It was explained that nothing could be done.
5. It was seen that the plan was useless.

Note that with some verbs (e.g. *believe*, *hope*, *think*, *say*) it is possible to use *so* in place of an affirmative clause and *not* in place of a negative clause.

E.g. So I noticed (said, thought, etc.). I believe so.
I hope (think, believe, etc.) not.

When *so* may be used, examples will be found with the verb entries.

Verb Pattern 12

Verbs marked VP 12 may be followed by a noun or pronoun and a *that*-clause Examples:

	Subject × *Verb*	*Noun or Pronoun*	(that) × *Clause*
1	I told	the man	(that) he was mistaken.
2	I warned	you	(that) he would be late.
3	We satisfied	ourselves	that the plan would work.
4	Please remind	him	that he must be here early.

Note the passive construction:

Has he been told (warned, reminded, etc.) that . . . ?

Note the use of *so* in place of a clause (as in VP 11).

E.g. I told you so! So I told you!

Verb Pattern 13

Verbs marked VP 13 may be followed by the conjunctives (except *why*) and *to* and an infinitive.

Examples:

	Subject × Verb	*Conjunctive*	to × *Infinitive, etc.*
1	I wonder	how	to do it.
2	I do not know	what	to do.
3	He is learning	how	to swim.
4	She was wondering	which	to buy.
5	Will you find out	how	to get there?
6	You must remember	when	to begin.
7	I do not know	whether	to go or stay.

Verb Pattern 14

Verbs marked VP 14 may be followed by a noun or pronoun, a conjunctive (except *why*), and *to* and an infinitive.

Examples:

	Subject × Verb	*Noun or Pronoun*	*Conjunctive*	to × *Infinitive, etc.*
1	We showed	him	how	to do it.
2	Please tell	me	which	to take.
3	Can you advise	me	which	to buy?
4	The patterns show	you	how	to make sentences.
5	Tell	me	whether	to come or not.
6	They told	him	when	to start.
7	Tell	her	what	to do.

Note the passive construction:

1. He was shown how to do it.
6. He was told when to start.

Note that sentences in which this pattern is used may also be constructed in VP 16.

E.g. We showed him how he should do it.

Verb Pattern 15

Verbs marked VP 15 may be followed by a clause introduced by a conjunctive. *If* is sometimes used instead of *whether*.

Examples:

	Subject × Verb	*Conjunctive*	*Clause*
1	I wonder	why	he has not come.
2	I wonder	whether (*or* if)	he will come.
3	I do not mind	where	we go.
4	Do you know	who	he is?
5	I do not care	what	you think.
6	Can you suggest	where	this ought to go?
7	Please say	what	you want.
8	Nobody knows	whose	it is.

Verb Pattern 16

Verbs marked VP 16 may be followed by a noun or pronoun and a clau
introduced by a conjunctive.

Examples:

	Subject × Verb	*Noun or Pronoun*	*Conjunctive*	*Clause*
1	Tell	me	what	it is.
2	Ask	him	where	he put it.
3	They asked	us	when	we should be back.
4	Can you tell	me	how	high it is?
5	Can you inform	me	when	the train leaves?
6	Please advise	me	whether	these seeds should be sown now.

Verb Pattern 17

Verbs marked VP 17 may be followed by a gerund. The pattern is subdivide
In Group A (including phrasal verbs such as *keep on*, *go on*, *give up*), in tho
cases where the gerund may be replaced by an infinitive, a change of meani
results. In Group B the gerund may be replaced by an infinitive without chan
of meaning. In Group C the gerund is equivalent to a passive infinitive.

Examples:

GROUP A

	Subject × Verb	*Gerund, etc.*
1	Please stop	talking.
2	He enjoys	playing tennis.
3	I remember	doing it.
4	Please excuse	my being so late.
5	Do you mind	staying a little longer?
6	Do you mind	my staying a little longer?
7	She couldn't help	laughing.
8	He keeps on	coming here.
9	They went on	talking.
10	Has it left off	raining yet?

Notes:

1. Cf. We stopped to talk (i.e. stopped doing something in order to talk).

3. Cf. He never remembers to post my letters (i.e. never remembers that
has letters of mine to post). (See VP 2.)

5. i.e. Will you please stay a little longer?

6. i.e. Will you please allow me to stay a little longer?

9. Cf. They went on to talk (i.e. next talked) about other matters.

GROUP B

	Subject × Verb	*Gerund, etc.*
1	He began	talking (= to talk).
2	He likes	swimming (= to swim).
3	I prefer	staying (= to stay) indoors on cold winter evening
4	I hate	refusing (= to refuse) every time.
5	He started	packing (= to pack) his books and clothes.

GROUP C

	Subject × Verb	*Gerund (= Passive Infinitive)*
1	It wants	doing (= to be done).
2	Your work needs	correcting (= to be corrected).
3	That needs	explaining (= to be explained).

Verb Pattern 18

Verbs marked VP 18 may be followed by a direct object, a preposition, and prepositional object (which may be a noun, pronoun, gerund, or clause). In roup A the preposition is *to*, in Group B it is *for*. Sentences in these two patterns ay also be constructed in VP 19. In Group C various prepositions are used d sentences in this pattern cannot be constructed in VP 19.

Examples:

GROUP A

	Subject × Verb	*Direct Object*	*Prep.*	*Prepositional Object*
1	I gave	the money	to	my friend.
2	They told	the news	to	everybody they met.
3	We showed	the pictures	to	our teachers.
4	I don't lend	my books	to	anybody.
5	He offered	one	to	me.
6	I owe	ten pounds	to	my tailor.
7	Throw	that box	to	me.
8	Bring	that book	to	me.

VP 19 the sentences are as follows:

1. I gave my friend the money.
6. I owe my tailor ten pounds.
8. Bring me that book.

GROUP B

	Subject × Verb	*Direct Object*	*Prep.*	*Prepositional Object*
1	He bought	a gold watch	for	his wife.
2	Please save	some	for	me.
3	She made	a new dress	for	herself.
4	Have you left	any	for	your sister?
5	Please get	two tickets	for	me.

VP 19 these sentences are as follows:

1. He bought his wife a gold watch.
2. Please save me some.
3. She made herself a new dress.
4. Have you left your sister any?
5. Please get me two tickets.

GROUP C

	Subject × Verb	*Direct Object*	*Prep.*	*Prepositional Object*
1	Thank	you	for	your kind help.
2	Ask	him	for	some more.
3	Compare	this	with	that.
4	They punished	him	for	being late.
5	Congratulate	him	on	his success.
6	Don't throw	stones	at	the dog.
7	What prevented	you	from	coming?
8	Add	this	to	what you already have.
9	I explained	my difficulty	to	him.
10	Protect	us	from	the enemy.

This pattern, in this order, is always used when the direct object is a personal pronoun, as in examples 1, 2, 4, 5, 7, and 10 above. In some cases, however, the direct object may come at the end of the sentence, the order being *Prep.* × *Prepositional Object* × *Direct Object* instead of *Direct Object* × *Prep.* × *Prepositional Object*. This inversion is often required (*a*) for clearness of meaning; (*b*) for emphasis of the direct object.

Examples:

1. *We heard from Jones all about his sister's escape.* (Inversion is necessary for clearness of meaning. *His sister's escape from Jones* could be something quite different.
2. *I explained to everyone in the room that nothing could be done until the following week.* (Inversion is necessary for clearness of meaning.)
3. *Add the examples I have written on the blackboard to what you already have* (or) *Add to what you already have the examples I have written on the blackboard.* (Either is possible. Inversion makes the direct object more prominent.)
4. *Don't throw stones at the dog. Don't throw at the dog anything that might hurt him.* (In the second sentence inversion is necessary for clearness: the antecedent *dog* precedes *him.*)

Verb Pattern 19

Verbs marked VP 19 may be followed by two objects, an indirect and a direct. The pattern is subdivided. In Group A are those verbs which may be used with the preposition *to* (VP 18A). In Group B are those verbs which may be used with the preposition *for* (VP 18B). In Group C are those verbs which are rarely or never used in VP 18. (The few exceptions are noted in the verb entries.)

Examples:

GROUP A

	Subject × Verb	*Indirect Object*	*Direct Object*
1	Have they paid	you	the money?
2	Will you lend	me	five shillings?
3	Our teacher gave	us	an English lesson.
4	I read	him	the letter.
5	Please throw	me	that book.
6	His mother told	him	a story.
7	He handed	me	the book.
8	The pupils wished	their teacher	'Good morning'.
9	He denies	her	nothing.

Group B

	Subject × Verb	*Indirect Object*	*Direct Object*
1	She made	herself	a cup of tea.
2	Her father bought	her	a new dress.
3	Buy	me	one.
4	Did you leave	me	any ?
5	She ordered	herself	a new dress.
6	Will you do	me	a favour ?
7	Can you spare	me	one ?
8	Can you get	me	a copy of that book ?

Group C

(rarely or never convertible into VP 18)

	Subject × Verb	*First Object*	*Second Object*
1	I envy	you	your fine garden.
2	Forgive	us	our sins.
3	That will save	me	a great deal of trouble.
4	I struck	him	a heavy blow.
5	He asked	me	a question.

Note that in this case the terms direct and indirect object have been avoided. The verb *strike*, for example, is usually described as taking a 'double object'. *Ask*, in example 5, is sometimes used in VP 18 with the preposition *of* (to ask a question of someone).

Verb Pattern 20

Verbs marked VP 20 may be followed by a complement expressing duration, distance, price, or weight. The preposition *for* is used with some of the verbs in his pattern but is often omitted.

Examples:

	Subject × Verb	(for) × *Complement*
1	We walked	(for) five miles.
2	They had come	a long way.
3	The forests stretched	(for) miles and miles.
4	The rain lasted	all day.
5	He may live	(for) many years yet.
6	We waited	(for) two hours.
7	It weighs	five tons.
8	The thermometer went up	ten degrees.
9	It cost	ten shillings.
10	Will you stay	(for) the night ?

Verb Pattern 21

Verbs marked VP 21 may be used without a complement. Such verbs are alled complete intransitive verbs. Some verbs which are normally used with n object may also be used in this pattern, the object being understood.

Examples:

	Subject	*Verb*
1	Fire	burns.
2	Birds	fly.
3	We all	breathe, eat, and drink.
4	The moon	rose.
5	The sun	was shining.

Verb Pattern 22

Verbs marked VP 22 are followed by a predicative word or phrase. The predicative is that part of an ordinary sentence which follows the verb and gives information about the subject of the sentence. The predicative may be an adjective, adjective phrase, noun, or pronoun.

Examples:

	Subject × Verb	*Predicative*
1	This is	a book.
2	This book is	mine.
3	That will be	plenty.
4	Please get	ready to start.
5	The weather has become	warmer.
6	The leaves have turned	red.
7	It feels	soft.
8	The plan proved	useless (of no use).
9	The results are	what we expected.
10	His dream came	true.

Note the following variants of VP 22:

(*a*) With the subject complement first:

What is that?
What price is that article?

(*b*) with an adverb or prepositional phrase as the complement:

She is in good health.
The fruit is far from ripe.
The machine is out of order.

(*c*) with an infinitive phrase as complement:

This house is to let.
My aim was to help her.
To know her is to like her.

(*d*) with preparatory *it*:

It is easy to do that.
It would be a pity to waste it.
It is no use your trying to do that.
It's a pity he couldn't come.

Verb Pattern 23

Verbs marked VP 23 are followed by an adverbial adjunct.

Examples:

	Subject × Verb	*Adverbial Adjunct*
1	Stand	up!
2	We must turn	back.
3	The sun rises	in the east.
4	We did not go	anywhere.
5	He will come	as soon as he is ready.
6	A chair will not stand	on two legs.

Note that in sentences in which *there* is used as a formal (preparatory or anticipatory) subject, VP 23 is used.

E.g. *There is a book on the desk.*

Verb Pattern 24

Verbs marked VP 24 may be followed by a preposition and a prepositional object (which may be a noun, pronoun, gerund, phrase, or clause).

Examples:

	Subject × Verb	*Prep.*	*Prepositional Object*
1	He called	on	me.
2	It depends	on	the weather.
3	He succeeded	in	solving the problem.
4	Look	at	the blackboard.
5	He believes	in	getting up early.
6	I should not think	of	doing such a thing.
7	I rely	on	your discretion.
8	I rely	on	you to be discreet.
9	I will arrange	for	transport.
10	I will arrange	for	a car to meet you at the station.

Verb Pattern 25

Verbs marked VP 25 are intransitive verbs which may, in some or all of their semantic varieties, be followed by *to* and an infinitive.

The pattern is subdivided. In Group A the infinitive is one of purpose or aim. In Group B it indicates result or outcome. In Group C it is used in a way that makes it equivalent to a co-ordinate clause. In Group D the infinitive is more mportant than the finite verb. In Group E the infinitive is used after finites of *be* for a variety of meanings.

Group A

	Subject × Verb	to × *Infinitive*
1	We stopped	to have a rest.
2	I am waiting	to hear your opinion.
3	I come	to bury Caesar, not to praise him.

GROUP B

	Subject × Verb	to × *Infinitive*
1	He lived	to be ninety.
2	How do you come	to know that?
3	How can I get	to know her?

GROUP C

	Subject × Verb	to × *Infinitive*
1	He awoke	to find the house on fire.
2	The good old days have gone	never to return.
3	She trembled	to think of it.

These may be paraphrased:

1. He awoke and found the house on fire.
2. The good old days have gone and will never return.
3. She trembled when she thought of it.

GROUP D

	Subject × Verb	to × *Infinitive*
1	They seemed	not to notice it.
2	Do you happen	to know where he is?
3	I chanced	to meet him in the park.

GROUP E

	Subject × Verb	to × *Infinitive*
1	We are	to be married in May.
2	Am I	to stand here for ever?
3	Nobody is	to know.
4	This I was only	to learn later.

KEY TO PRONUNCIATION AND STRESS

VOWELS AND DIPHTHONGS

Symbol	*Examples*	
i:	*green* [gri:n]	*three* [θri:]
i	*sit* [sit]	*this* [ðis]
e	*desk* [desk]	*leg* [leg]
æ	*man* [mæn]	*back* [bæk]
ɑ:	*glass* [glɑ:s]	*father* [ˈfɑ:ðə*]
ɔ	*hot* [hɔt]	*clock* [klɔk]
ɔ:	*ball* [bɔ:l]	*draw* [drɔ:]
o[1]	*obey* [oˈbei]	*November* [noˈvembə*]
u	*book* [buk]	*put* [put]
u:	*moon* [mu:n]	*too, two* [tu:]
ʌ	*son, sun* [sʌn]	*come* [kʌm]
ə:	*word* [wə:d]	*first* [fə:st]
ə	*ago* [əˈgou]	*under* [ˈʌndə*]
ei	*day* [dei]	*name* [neim]
ou	*nose* [nouz]	*go* [gou]
ai	*five* [faiv]	*high* [hai]
au	*how* [hau]	*mouth* [mauθ]
ɔi	*boy* [bɔi]	*noise* [nɔiz]
iə	*here, hear* [hiə*]	*near* [niə*]
ɛə	*chair* [tʃɛə*]	*there* [ðɛə*]
ɔə[2]	*four* [fɔə*]	*more* [mɔə*]
uə	*poor* [puə*]	*fewer* [fjuə*]

[1] This occurs as a variant only. It may occur in place of the diphthong [ou] in un-ressed syllables, as in *obey*. For *obey* three pronunciations may be heard: [əˈbei, oˈbei, uˈbei]. The second and third pronunciations may be indicated thus: [*ou*ˈbei].

[2] This also occurs as a variant. *Four* and *more* may be pronounced [fɔ:*] and [mɔ:*].

CONSONANTS

Notes

If a symbol is in italic type the sound it stands for is, by many speakers, and usually in rapid speech, not pronounced. The transcription [ˈpous*t*mən] (for *postman*) indicates that both [ˈpoustmən] and [ˈpousmən] are used. ([ˈpousmən] is the more usual.) The transcription [ˈsign*ə*l] (for *signal*) indicates that both [ˈsignəl] and [ˈsignl] (with *-al* as a syllabic consonant) are used. The transcription [ˈmem*ə*rəbl] (for *memorable*) indicates that both [ˈmemərəbl] and [ˈmemrəbl] are used.

The asterisk (as in [wɛə*]) indicates the possibility of *r*-linking. Compare:

Where was it?	[wɛə wɔz it?]
Where is it?	[wɛər iz it?]

The [r] is sounded when the word that immediately follows begins with a vowel sound.

Stress

A primary stress is indicated by a short vertical stroke above the line and a secondary stress by a stroke below the line. Thus, *veneration* [ˌvenəˈreiʃ*ə*n], with a secondary stress on the first and a primary stress on the penultimate syllable, and *valetudinarian* [ˈvæliˌtjuːdiˈnɛəriən], with primary stresses on the first and fifth syllables and a secondary stress on the third syllable.

Sentence stress may cause a shift in the normal position of syllable stress. The numbers *thirteen, fourteen*, etc. are transcribed with double stress ([ˈθəːˈtiːn, ˈfɔːˈtiːn] etc.). In different contexts either [ˈθəːtiːn] or [θəːˈtiːn] may occur.

Stresses in compounds for which phonetic transcriptions are not supplied are marked in the ordinary spelling, thus: *ˈthunder-struck, ˈtideway, ˈtight-ˈfisted, ˈthought-ˌreader*. Stresses are not usually marked in the very numerous instances of one noun modified by another noun, printed and written without a hyphen, as *woman driver, actor manager*. In these double stress is normal. Compare *ˈslave-ˌdriver*, primary and secondary stresses. The absence of firm rules for the use of the hyphen, however, makes it difficult to be consistent in this matter. *Bank manager* is written and printed without a hyphen, but the stresses are, in this type of collocation, like those of *slave-driver*, primary followed by secondary. The learner must, if he wishes to use stresses correctly, acquire his knowledge by observation or by a study of the relationship between stress, meaning, and sentence rhythm.

It isn't as though he were poor.* Followed by a *to*-infinitive: *He opened his lips as if to say something.* **12. *as for***, with reference to (sometimes suggesting indifference or contempt):

for you, I never want to see you here
n. ***as to***, about; concerning. (Better
ided except when the words follow-
as to are shifted to the beginning of
ntence for prominence): *As to your*
her, I will deal with him later. **13.**
d as a conj. to introduce relative
ses, chiefly after *same* and *such*):
h women as knew Tom (those women
knew him) *thought he was charming.*
h women as Tom knew (those women
m Tom knew) *thought he was charm-*
You must show my wife the same
ect as you show me (the respect that
show me). ***We drove out of the town***
he same road as we had entered by.
(introducing a non-defining relative
se, the antecedent being inferred):
rus, as (which fact) *you all know, is in*
Mediterranean. To shut your eyes to
s, as many of you do, is foolish. **15.**
as to, (*a*) introducing an infinitive of
pose: *He stood up so as to* (= in order
see better. (*b*) introducing an infinitive
manner: *It is foolish to behave so as*
nnoy (= in ways that annoy) *your*
hbours. **16.** ***as good as***, the same
g as: *Will he be as good as his word?*
ll he do what he promised?) *He's*
ood as dead, almost dead, sure to die
n. **17.** ***as (so) long as***, (*a*) on condi-

eself): *He busied himself with* (*about*)
sorts of little tasks. She busied her-
(*in*) *tidying up her desk.* **bus i ly**
zili] *adv.* in a ~ way: *busily engaged*
doing sth. **~ness** ['bizinis] *n.* [U]
e or quality of being ~. (Cf. *business.*)
bʌt] *conj., adv., prep., & rel. pron.*
onj. 1. (coordinating): *Tom was not*
e but his brother was. We tried to do
ut couldn't. He's a hardworking but
very intelligent boy. 2. (subordinat-
, with a negative implication): *I never*
oast my old school but I think (without
nking) *of Mr. Wilkins, the headmaster.*
would have fallen but that I (if I had
) *caught her. No man is so old but*
he may learn, no man is too old to
n. *Never a month passes but she*
tes (in which she does not write) *to*
old parents. 3. (with *cannot* or *could*
and an inf.): *I cannot help but think*
, am compelled to . . . *I could not*
ose but go (had no alternative). *I*
not but admire (must admire, cannot
p admiring) *your decision.* **II.** *adv.*
y (which is more usual): *We can but*
He left but an hour ago. He's but a
. *If I could but see you for an hour!*
. *prep.* (The uses of *but* as a prep.
as a conj. are not always clearly to
distinguished. The subject forms of
personal pronouns are often used
er *but* meaning 'except', as if it were
onj. The object forms are also used,
if *but* were a prep.) (With negatives,
no one, none, nothing, and interroga-
es, e.g. *who,* and such words as *all,*
ry one) except, excluding: *Nothing*
disaster would come from such a plan.
ey're all wrong but me. No one but
(*him*) *showed much interest in the*
posal. Who but he would do such a
ng? **first (next, last) but one (two,**
ree): *Take the next turning but one*
e second turning) *on your left. I live*
the last house but two (the third house
m the end) *in this street. Smith was*
last but one to arrive. **but for,** except
, without: *But for your help we should*
have finished in time. But for the rain
it had not rained) *we should have had*
pleasant journey. **but then,** on the
er hand: *London is a noisy place, but*
n it's also the place where you get the
t entertainments. **but that,** except
t: *He would have helped us but that*
it were not for the fact that) *he was*
rt of money at the time. **not but that**
hat), used to exclude a possibility:
can't come, not but that I'd like to
ough you must not suppose that I
uld not like to come). *I can't help*
, not but what I pity her (although I do
y her). **IV.** *rel. pron.* who or that
t: *There is not one of us but wishes*
t one of us who does not wish) *to help*
you. There are few of us but (few of us who do not) *admire your determination.*
